## Gotham.--Season.2.--720p.HDTV.--x265.HEVC.--ShAaNiG

e79caf774b

What happened? A: .Gotham Season 2 Complete (LOL, PSA, RMTeam, ShAaNiG, HEVC, mSD, AFG, That is a ` for the question mark. A: You have to add a question mark. Also, you need the "-" for that. Q: Scipy's Minimize returns no error, no result I'm relatively new to Python, this is my first attempt at scipy. I've searched around StackOverflow, however, none of the answers seem to apply. I'm using scipy.optimize.minimize() to maximize the likelihood of a string. The problem is that the minimize() function is not reporting an error or result. It just returns a tuple with the value of the bound and the gradient. Here's the code, I'm very new to Python (never touched C code till now) and haven't gotten this far yet from scipy.optimize

```
import minimize
def likelihood(u):
    t = 0.0
    s = [0, 1, 2, 3, 4, 5, 6, 7]
    n = len(s)
    res = 0.0
    for x in range(0, len(s)):
        if abs(u[0] - s[x]) > 0.05:
            res += 1
```
